# *Radway's* LAWN SEED PLANTING INSTRUCTIONS

## The A. B. C. of LAWN MAKING WHEN TO PLANT? . . . . . ONCE IN A LIFE TIME

(Provided you use permanent sorts which are high priced without timothy). If much timothy is mixed in cheaper lawn grass, replanting should be done every year.

**GRADE SOIL.**

**PERFORATE OR SPADE SOIL 5 to 8 INCHES.**

**FERTILIZE SOIL.**

**RAKE SOIL SMOOTH.**

**BROADCAST (sow) GRASS SEED THICKLY.**

**RAKE SEED IN. ROLL OR POUND.**

**WATER LIGHTLY—RAIN EFFECT SPRINKLER.**

**SEEDING TIME: APRIL TO NOVEMBER.**

Fall seeding is preferable-gives the lawn a weedless start for the spring.

Don't cut young grass too close.

Roll every week.

Keep soil continually aerated—with sand—**TOP DRESSING** and frequent hard iron raking or spiking.

**THE EARTH MUST BREATHE**—otherwise you will have a cement patch instead of a soft carpet.

Top dress every two months with top soil, humus or peat moss a little sand and fertilizer, and a few handful of lawn seed. About a pailful of each all mixed together to be sprinkled and raked evenly all over the lawn.

### FERTILIZER RATES OF APPLICATION.

per 1000 square feet recommended by best authorities.

**GRASS SEED** 5 lbs. (10x100) or (20x50)  
or (30x33) sq. feet.

**BONE MEAL** 18 lbs. encourages weeds and clover.

**COTTON SEED MEAL** 16 lbs. organic high in nitrogen

**SHEEP MANURE** 24 lbs. encourages weeds and clover.

**LIME** 40 lbs. for clay soil. Not a fertilizer.

**NITRATE OF SODA** 8 lbs. encourages weeds and clover.

**SULPHATE OF AMMONIA** 6 lbs. discourages weeds and white clover. Encourages bent grasses and Red Top.

**PEAT MOSS HUMUS** Both retain moisture.

After you have a lawn—soak it—don't sprinkle it lightly. **SUNSHINE** may burn a lawn—watering in the shade will show results. Water thoroughly every few days—not a few minutes every evening. Remember, wholesale dealers pay as high as \$1.00 a pound for certain Bent and imported Grasses for turf purposes, therefore the higher the price, the better your lawn.

Higher grade and more expensive seeds are as follows: fancy Red top, Kentucky Blue Grass, Fescues, Bent Grasses.
